

# 5 Reasons Every Business Needs to Test Their Network

**77% of organizations** lack an incident response plan and the average cyber incident is costing businesses worldwide **\$1.79M per minute due to cybercrime.**

**01** Cybercriminals can penetrate **93% of business networks.**

**\$17,700 is lost every minute** due to a phishing attack.

**02**

**03** **41% of organizations** have experienced 3 or more critical risk events in the last 12 months.

It's expected that more than **33 billion records** will be exposed via data breaches in 2023 alone.

**04**

**05** Enterprises with efficient cyber-attack prevention strategies can save up to **\$1.4 million** per averted attack.

It takes just one gap to put your whole network at risk.

Test your infrastructure while scaling your security posture using Penetration Testing from **Claro Enterprise Solutions.**
